1. Identification

PRODUCT NAME:	Citrus Solve	PRODUCT CODE:	1000 to 1009
USE:	Hard Surface Cleaner. Multi Purpose Cleaner	RESTRICTIONS:	All other uses than those indicated on the product label and technical data sheet.
MANUFACTURER:	Allspar Solutions Inc. 150 Connie Crescent, Unit 12 Concord, ON L4K 1L9 (905) 760-1964	SUPPLIER:	
	EMERGENCY TELEPHONE NUM	BER: CANUTEC - (61	3) 996-6666

2. Hazard Identification

HAZARD CLASSIFICATION:	GHS07
LABEL ELEMENTS:	
SYMBOL:	
SIGNAL WORD:	Warning
HAZARD STATEMENT:	H319 CAUSES EYE IRRITATION H315: Causes skin irritation
PRECAUTIONARY	P264 Wash thoroughly after handling.
STATEMENT:	 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 IF EYE IRRITATION PERSISTS: Get medical attention. P501 Dispose of contents and container in accordance with local, regional and national regulations. P264 Wash thoroughly after handling. P303+P361+P353 IF ON SKIN OR HAIR: Remove or take off immediately all contaminated clothing. Rinse skin with water.
OTHER HAZARDS:	None.

3. COMPOSITION / INFORMATION ON INGREDIENTS

CHEMICAL NAME	COMMON NAME	CAS REGISTRY	CONCENTRATION
Sodium Metasilicate		6834-92-0	1 - 5 %
Alcohols (C12-15) ethoxylate / Alcool (C12-15)		68131-39-5	1 - 5 %
éthoxylate			

For production reasons a range is given. There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section NOTE: Confidential business information rules can apply.

4. FIRST-AID MEASURES

FIRST-AID MEASURES BY ROUTE	OF EXPOSURE:
INHALATION:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention.
SKIN CONTACT:	Remove immediately all contaminated clothing. Wash with soap and water and rinse thoroughly. If skin irritation or a rash occurs: Get medical advice/attention.
EYE CONTACT:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
INGESTION:	Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Get medical attention immediately. Call a poison center or physician.
MOST IMPORTANT SYMPTOMS AND EFFECTS (ACUTE OR DELAYED):	None known.
IMMEDIATE MEDICAL ATTENTION AND SPECIAL TREATMENT IF NECESSARY:	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested.

5. FIRE-FIGHTING MEASURES

SUITABLE EXTINGUISHING MEDIA:	CO2, sand, extinguishing powder for surrounding fire.
UNSUITABLE EXTINGUISHING MEDIA:	NAV
SPECIFIC HAZARDS ARISING FROM THE HAZARDOUS PRODUCT:	In case of accidental fire and extreme heat conditions, the following gaseous products can be released after water evaporation: hydrocarbons, carbon monoxides and dioxides (COx) and nitrogen dioxide (NOx).
SPECIAL PROTECTIVE EQUIPMENT AND PRECAUTIONS FOR FIREFIGHTERS:	No special measures required
ADDITIONAL INFORMATION:	This product is not flammable

Date: Nov. 27, 18

6. ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS, PROTECTIVE	Wear recommended protective equipment(s). Keep unprotected
EQUIPMENT AND EMERGENCY PROCEDURES:	persons away.
METHODS AND MATERIALS FOR	SMALL SPILL: Stop leak if without risk. Move containers from spill
CONTAINMENT AND CLEANING UP:	area. Dilute with water and mop up. Alternatively absorb with an
	inert dry material and place in an appropriate waste disposal
	container. Dispose of via a licensed waste disposal contractor.
	LARGE SPILL: Stop leak if without risk. Move containers from spill
	area. Approach release from upwind. Prevent entry into sewers,
	water courses, basements or confined areas. Wash spillages into an
	effluent treatment plant or proceed as follows. Contain and collect
	spillage with non-combustible, absorbent material e.g. sand, earth,
	vermiculite or diatomaceous earth and place in container for
	disposal according to local regulations (see Section 13). The spilled
	material may be neutralized vinegar or citric acid. Dispose of via a
	licensed waste disposal contractor. Contaminated absorbent
	material may pose the same hazard as the spilled product. Note: see
	Section 1 for emergency contact information and Section 13 for
	waste disposal.

7. HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING:	Put on appropriate personal protective equipment (see Section 8). Do not get in eyes or on skin or clothing. Do not breathe vapour or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Keep away from acids and oxidizers. Empty containers retain product residue and can be hazardous. Do not reuse container.
CONDITIONS FOR SAFE STORAGE INCLUDING INCOMPATIBLE MATERIAL:	Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

CONTROL PARAMETERS, INCLUDING OCC THE SOURCE OF THOSE VALUES:	CUPATIONAL EXPOSURE GUIDELINES OR BIOLOGICAL EXPOSURE LIMITS AND
APPROPRIATE ENGINEERING CONTROLS:	Ensure appropriate aeration and ventilation.

Date: Nov. 27, 18

Avoid contact with the eyes and skin. Do not breathe dust, fume, gas, mist,
vapours or spray. Immediately remove all soiled and contaminated clothing.
Wash hands before breaks and at the end of work. Keep away from
foodstuffs, beverages and feed.
Breathing equipment: If airborne concentrations are above the permissible
exposure limit or arc not known, use NIOSH-approved respirators.
Respirators should be selected based on the form and concentration of
contaminants in air, and in accordance with OSHA (29 CFR 1910.134). Advice
should be sought from respiratory protection specialists
Protection of hands: Chemical-resistant, impervious gloves complying with
an approved standard should be worn at all times when handling chemical
products if a risk assessment indicates this is necessary.
Eye protection: Safety eyewear complying with an approved standard should
be used when a risk assessment indicates this is necessary to avoid exposure
to liquid splashes, mists, gases or dusts. If contact is possible, the following
protection should be worn, unless the assessment indicates a higher degree
of protection: chemical splash goggles and/ or face shield. Safety glasses with
side-shields.
Body protection: Personal protective equipment for the body should be
selected based on the task being performed and the risks involved and
should be approved by a specialist before handling this product.
Recommended: safety apron

10. STABILITY AND REACTIVITY

REACTIVITY:	No specific test data related to reactivity available for this product or its ingredients.
CHEMICAL STABILITY:	The product is stable.
POSSIBILITY OF HAZARDOUS REACTIONS:	Under normal conditions of storage and use, hazardous reactions will not
	occur.
CONDITIONS TO AVOID:	No specific data.

MOBILITY IN SOIL	No further relevant information available.
OTHER ADVERSE EFFECTS	No known significant effects or critical hazards.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods:

Recommendation: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

Uncleaned packagings: This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. **Recommendation:** Disposal must be made according to official regulations.

Recommended cleansing agent: Water.
